THE HASH

Poor Mr Blobby was left to lay the trail alone as C5 was double booked and on a bike ride!

Motox led an impromptu walk (as there wasn't one prepared!)

Pretty in Pink was attached to an arm sling and walking the trail as he had dislocated his shoulder in a rugby match.

Despite having a new car, Snowy used Slip's old car now she has retired – how tight is that!

The trail was clearly conjured up with a lot of local knowledge; around gravel pits and conifer plantations on a super fine October day; in and out of Englefield estate through Mortimer, Burghfield and Padworth (just) - a fresh route that we had not taken before. It was a good 6 miler including falses, with a short cutting off about a mile from that. Almost professional laid by Mr B with perfect checks and falses to keep the group together.

When the short trail split from the 'die hards' it was set with severe subterfuge in order slow the front runners, and it did, for a good 5 minutes plus – goddammit!

BGB showed his nasty side and suggested we 'kick out' a check to send the main pack around a lake to a dead end – clearly I wouldn't allow this to happen.. not.

At the end we were blessed with the presence of GT and GT2 (GT2 had with lovely long hair. I can't think of anything lovely to say about GT obv's)

A few highlighted from the brief 43rd AGM:

THE GM drew attention to the challenges of 'lockdown' times and also towards events as we return to normal: the 2020 hash party with a long trail, virtual Limassol half, virtual Lands' end to John O'groats, the wake for C4 and the 50th anniversary for Mr. and Mrs. Blobby.

Skinny Dipper was praised for changing the Hash Bank and this required a Club Constitution doc written by Mr. Blobby.

The Committee will see a change in 'On secs' to Swallow as Tequilover is sadly returning to Canada in November. 'Has ents' and 'Dogs Body' are open positions. Both False tart and Pretty in pink will support the 'Hash Mash'

For further AGM information please refer to the committee minutes.

DOWN DOWNS

Recipient	Reason
Messenger Boy and Twanky	According to Hashgate I laid claim to be the creator of Twanky's Hash Song! However, when we practiced it in Twanky's absence a few weeks back, I did state it was his song and we would surprise him with 'performance' upon his return – a fact to which all attendees will corroborate! Anyhow we did perform his very song and 'all's well that ends well'.
Skinny Dipper	Went to the wrong Hash venuein the wrong town!
Slipps	For retiring two weeks back.
Mrs Blobby, Lilo	For leading the walk.....astray and upsetting Motox.
Slapper and No Sole	For Birthdays one day apart, making today the only one day in the year that they are the same age!
